Interpretation of Feedback from Students on Teachers

communication skills, the time allotted for interaction with students, the evaluation process of internal assessment, and overall academic performance. However, the feedback related to the use of ICT, availability of teachers outside the class, and guidance and mentoring is average.

Action Taken

Based on the analysis and interpretation of the feedback, the following actions have been taken for the betterment of the student community:

1. The faculty members are informed to equip with the required skills and knowledge to conduct ICT classes to make the students gain the subject knowledge in depth.

2. They are informed to make them accessible to the students outside the class and address their academic and non-academic needs.

3. They are also informed to spare their valuable time to guide and mentor the students to achieve academic excellence.
